Drugs, Medicines, Paints, Oils, &c. LYON'S MAGNETIC POWDERS,

Will destroy Garden Insects, Cockroaches, Bed-Bugs, Fleas, Ants, Moths, and all pests of the vermin kind. The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with these annoying foes. This powder is the only article ever discovered which will exterminate them. A company of botanists, from the Horticultural Society of Paris, while amidst the ferns of Asia, observed that all insects lighting upon a certain kind of plant very soon dropped dead. This fact was made use of to guard their night camps from the intruders. Quantities of the plant was brought home by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age and climate. Medals and Letters Patent have been obtained from the governments of England, France, Germany and Russia, from the World's Fair, and

numerous medical and horticultural colleges and societies. FARMS. Letter from the President of the United States. "EXECUTIVE MANSION, WASHINGTON, 31st Jan. 1854. "MR. EMANUEL LYON .- Dear Sir: I have the pleasure to inform you that the Commission, of the World's Fair, at London, have awarded you a Medal and Certificate for the great value of your Magnetic Powders, &c.

"MILLARD FILLMORE, Chairman." The above was accompanied by a certificate of Prince Albert.

IT IS FREE FROM POISON. NEW YORK, October 1st, 1858. MR. E. Lyon.-Dear Sir: We have analysed and tested your Magnetic Powders and find them perfectly harmless to mankind and domestic animals, but certain death when inhaled by bugs, ants and insects.

JAMES R. CHILTON, M. D., Chemist.

LAURANCE REID, Prof. Chemistry, N. Y. Hospital. Mr. John L. Rome, Superintendant of the New York Hos-Will give prompt and personal attention to all pital, says, "he has expelled all the bugs, ants, roaches, consignments of SPIRITS TURPENTINE, MOSIN, moths, &c., with Lyon's Magnetic Powder, and finds it of immense value.

Every gardner and housekeeper must have a direct interest in an article of this kind. Reference can be made to the Astor, St. Nicholas, and Metropolitan Hotels; to Judge Meigs, President of the American Institute; James Gordon Bennett, Gen. Winfield Scott, Cyrus W. Field, L. M. Pease, of the Five Points Mission, &c., &c. Judge Meigs says, "This discovery of Prof. Lyon is of national importance. The Farmers' Club have tested it thereughly. It will destroy the reception of produce either by Railroad or River, ena- the Astor, St. Nicholas, and Metropolitan Hotels; to Judge The Farmers' Club have tested it thoroughly. It will destroy locusts, grasshoppers, ants, moths, bugs, and all vermin. Garden plants can be preserved, and houses made pure.' Arrangements are now made through Messrs. BARNES & PARK, of New York, to have it sold throughout the world. Many worthless imitations are advertised. Be cautious! "NEW YORK, Nov. 8th, 1858.

" In retiring from business, I have sold all my Insect Powcovery made by myself, and brought from the interior of O., Brunswick county, N. C. Asia, and is unknown to any other persons. The genuine and effective article is put up in tin canisters, and will continue to bear my name. Rats and mice cannot be reached by a powder, and are ments. The largest stock in the State, and sold wholesale killed by a Magnetic Pill. Order them through any merchant.

'Tis Lyon's Powder kills insects in a trice, But Lyon's Pills are mixed for rats and mice. Sample flasks, 25 cents; regular sizes, 50 cents and \$1 00. Follow directions. Use freely and thoroughly.

We have been hugely amused with the story of a native of the Emerald Isle, who undertook on one occasion to show his colloquial resources in the polite previncialisms of the French language. The story condensed (for Also, in Baird v. speak French; no one of them knew anything of that

It was sufficient. Patrick was sent on his errand, and after a while entered a peasant's house, and when the master rose to meet him, he said in his best smiles,-" Parles vous Frongsay, Monsieur ?" " Oui, Monsieur," blandly replied the Frenchman. "Well, thin, will ye be plazed to lind me loan of a

Patrick was nonplussed, but determined not to be put out of countenance by a Frenchman, he said again, more distinctly, " Parlez vons Frongsay, Monsieur?" "Oui! Oui!" (Yes, yes!) was the prompt reply.

" Oui! Monsieur! Ori!" "Well, thin, its a small favor I ask of ye, Will ye be plazed to lind me the loan of a gridiron? The incomprehensible Frenchman could not understand the rhetoric of the visitor, and shook his head doubtingly, when Patrick, with a conscious pride of his diplomacy, and the indignity with which he had been
